

General Index to Volume 20

January — December 1982

NB: The Arabic numbers refer to the pages and the Roman numbers I-XII refer to the issues in which then entry will be found.

ARTICLES

ABMEC surface equipment group, 149-150 IV
Air flow pattern in multi-entry mine ventilation systems, 533-537 XI
Ancient mine working problems, 589 XII
Atlas Copco at Las Vegas, 612-613 XII
Australian Synfuel Technology, 529-530 XI
Automated control of conveyors, 243-246 VI
Automatic grading and loading system, 9-10 I
Automation package, 11 I
Causes of minor injuries in transport and handling, 22-23 I
Circular tunnelling machine, 193-195 V
Coal by wire, 428-434 VIII
Coal for British industry, 418-422 VIII
Coal mine project in Canada, 609 XII
Coal mining surveys, 294-297 VII
Coal outbursts and gas drainage, 176-178 IV
Computer-based Automation, 12 I
Computer in coal preparation at Renishaw Park, The, 373-376 VIII
Computers in mining, 543-544 XI
Continuous hydraulic transportation of coarse solids, 585-588 XII
Cost conscious machines, 135 III
Cutting heads for tunnelling, 132 III
Definitions of the problems of disused coal mine shafts, The, 569-571 XI
Design of coal face equipment, 82-85 II
Development of high speed man-riding belt conveyor, 284-287 VII
Development of the "Mechanics Megger" — A hydraulic orifice test unit, 39-47 I
Development of a vertical bunker level indicating system, 596-602 XII
Developments in the Coal Industry for Safety and Productivity, 565-566 XI
Diesel power for underground vehicles, 153-156 IV
Diesel-powered trackless vehicle developments, 213-222 V
Drilling for tunnel excavation, 132 II
Efficient and economic transport system, An, 29-30 I
EIMCO QDS system, 173 IV
Electric dumper demonstrates its flexibility, 602 XII
Electrically driven rubber-tyred vehicles for underground mining, 162-168 IV
Examples of lubrication and wear problems, 189-190 V
Expansion of Neyveli lignite mines, 261-268 VI
Explosion at Cardowan Colliery, 557-563 XI
Explosion 1934, 101-105 III
Extended gas making run at Westfield in Scotland, 5 I
Face-end support system for advancing longwall, 86-87 II
Face-end supports, 86 II
Factory Extension, 88 II
Fibreglass piping in corrosive and abrasive application, 605-608 XII
Gascolgne wood surface drifts, 127-128 III
Gas from coal — the Slagging Gasifier, 505-512 X
Headgear overwind catchgear, 298-301 VII
Health and Safety law requires effective self-regulation, 445-446 IX
High-pressure waterjet assisted road profiling, 477-479 IX
How Selby will provide power station coal, 386-390 VIII
How to do business in the Far East, 292 VII
Improvements in surface coal scheme, 271 VI
In support of advance/retreat faces, 87-88 II
Investing for high-quality fuel, 378-385 VIII

Long-distance coal haulage by underground locomotives, S1-5 X
Machine at the face-end, 85 II
Machine breaks through, 135 III
Machines for tunnelling and road heading, 131 III
Made-to-measure grouting, 134 III
Menriding and materials handling, 157 IV
Maximising on hole technology, 459-460 IX
Mercury fulminate: The essential initiator, 539-540 XI
Merseyside investment, 71 II
Methane exhausters for fire-damp drainage, 16 I
Mine Locomotion, 172 IV
Mining in Russia — Alliance of science and production, 32-33 I
Modular plant concept, The, 351-358 VIII
Monitoring airflow through Hollow Shaft Ventilators, 237-240 VI
Multi-national coal company operating principles and transport arrangements, A, S31-35 X
NCB Automation, 11 I
New developments in industrial combustion, 402-406 VIII
New equipment for domestic heating, 397-401 VIII
New technique in coal mining, 62-63 II
New Zealand report, 74-75 II
Open-pit lignite mining in Spain, 495-503 X
Overview of China's Coal Industry, 18-20 I
Pneumatically controlled automation for improved productivity, 251-254 VI
Polycrystalline drill bits, 461-464 IX
Powered support control systems, 247-250 VI
Preheating coking coal process, 564 XI
Present day coal tar and associated products industries, The 391-396 VIII
Preventing corrosion underground, 57-58 II
Prime movers, transmissions and other engineering aspects of transport, S18-30 X
Redevelopment of slack heaps, 108-112 III
Resources must be used in a comprehensive way, 91 II
Roadheaders — tough cutting, 116-120 III
Selling British coal overseas, 423-427 VIII
Selling coal, 349 VIII
Shaft developments in Germany, 302 VII
Shearers for face-end techniques, 79-81 II
Simulation program optimises handling systems, 212 V
Small gasifiers in industry, 407-414 VIII
Support of advance/retreat faces, In, 87-88 II
Support systems at face-ends, 451-455 IX
Surface drifts project, 129 III
Tailing disposal, 367-371 VIII
Taking a look at coal down under, 591-592 XII
Technological changes must not affect fire control in mines, 207-210 V
Transport to the face-ends, 134 III
Treatment of fine coal, The, 359-366 VIII
Tunnelling and mining plant, 131 III
Tunnelling machinery for coal mines in the 1980s, 120-124 III
UK coal liquefaction programme, The, 415-417 VIII
Underground coal gasification in the USSR, 65-68 II
Underground locomotive haulage, 169-170 IV
Underground Radio, 12 I
Underground transport of materials and men, 159 IV
Underground transportation of men and materials in Australian coal mines, S12-17 X
When reserves should be looked for, 33 I

AUTHORS

Willis, D M, 402-406 VIII
Wort, K G, 120-124 III
Zhao-Ning, Chen, 18-20 I
Zvyagintsev, K N, 65-68 II

BOOK REVIEWS

Application of rock mechanics to cut and fill mining, 223 V
Asian Mining 1981, 20 I
British Pump Market 1981/82, The, 212 V
Coal cleaning technology, 105 III
Coal Gasification: existing processes and new developments, 530 XI
Coal-oil mixture technology, 530 XI
Coal-typology, chemistry, physics construction (Reprint), 58 II
Coal Utilisation: technology, economics and policy, 530 XI
Collier, The, 446 IX
Design and construction of Staple Shear Bunkers, 180 IV
Doncaster Metropolitan Inst. of Higher Education Mining Society Journal, 140 III
Energy-Coal, 135 III
Financial Times Mining International Year Book 1982, 224 V
Fluidised Combustion: systems and applications, 530 XI
Future of coal, The, 512 X
Geochemistry of Coal, 474 IX
Grubenklime (The climate in mines) Vol. 27, 71 II
Hydrological problems of surface mining, 27 I

Improving the effectiveness of flotation, 530 XI
Industrial Saundersfoot, 474 IX
Jet Cutting Technology, 297 VII
Low-rank coal technology, 614 XII
Mine wastes reclamation, 614 XII
Nottinghamshire Coalfield 1981-1981, 27 I
Polytechnic of Wales Mining Soc. Mag. Vol. 24, 140 III
Proceedings of the Symposium on Face-ends Technology 1980, 27 I
Quarry reclamation, 513 X
Quarrying and rockbreaking, 474 IX
Remote and automatic control of longwall mining, 615 XII
Solvent extraction of coal, 157 IV
Surface mining: soil, coal and society, 63 II
Synthetic Fuels Technology Overview with Health and Environmental Impacts, 27 I
Taschenbuch fur Bergbauingenieure 1982 (Handbook for Mining Engineers '82), 75 II
United Kingdom Mineral Statistics 1981, 474 IX

COALFIELD NEWS

Scotland
"Angels" with dirty faces, 179 IV
Bid to reopen Dalkeith, 604 XII
Fault halts project, 456 IX
File mining on the map, 604 XII
Fire hazard at Seafield, 456 IX
First aid winners, 234 VI
Hopes for mine site, 553 XI
In search of coal, 456 IX
Pit Plan, 234 VI
Opencast at Westfield, 308 VII
Undersea exploration, 234 VI
Yorkshire
Award for Thorne, 90 II
Hot stuff on the buses, 553 XI
Model demonstrates drift mining, 604 XII
Selby headgear slips up, 179 IV
Tailor made bunker, 234 VI
Winding tower construction, 456 IX
South Midlands
Harworth development, 179 IV
Investment at Snowdown, 308 VII
North Notts
Done a ton, 604 XII
Investment in Ollerton, 553 XI
Rapid loader, 234 VI
South Notts
Memorial, 234 VI
One alone, 308 VII
North Derby
Fourth audit, A, 456 IX
Western
Coal terminal, 308 VII
Hat-trick, 90 II
Methane to fire ICI plant, 456 IX
Victoria Colliery, 553 XI
South Wales
Coal launderette, 308 VII
Fitness cycle, 90 II
Link tunnel, 179 IV
Safety prize, 308 VII
Top award, 604 XII
Underground ventilation, 308 VII
Ventilating standards, 179 IV
COMMENT
All Change, 491 X
Anyone for Coal?, 3 I
Back to coal, 231 VI
Cardowan blast accident report, 279 VII
Carry on exporting, 147 IV
C.I.S. salutes Joe Gormley, 3 I
Colliery Guardian 1982 Students' Competition, 491 X
Correction, 231 VI
CTBA Dinner, 3 I
Coal industry's productivity up (Sir Derek Ezra), 147 IV
Growth in British coal exports, 55 II
HSC move to reduce manual handling accidents, 231 VI
Increased productivity, difficult markets and continuing development, 443 IX
Liquefaction, 279 VII

Measure the change to coal, 99 III
NCB Chairmanship, 279 VII
NCB replies to Select Committee on energy, 187 V
Report on transport accidents, 491 X
Scargill out! Miners Rule OK? 527 XI
Strike, 443 IX
Students' Prize Comp. '82, 99 III
Winters Tale, A, 579 XII

Company news
Airfair '82, 449 IX
Air Show takes the road, 307 VII
Berl factory reopened, 307 VII
Brazilian mining company formed, 260 VI
Change to FB's boiler, 36 I
Chute liner order, 446 IX
Coal handling system for ICI, 446 IX
Colliery contracts, 449 IX
Denver NCB approved, 139 III
Dunlop footwear, 307 VII
Electrical equipment for hazardous areas, 583 XII
Exhibition at test centre, 138 III
Exhibition centre for FSW, 139 III
Exports for India, 139 III
Factory extension, 307 VII
Fenaplast plant in Australia, 138 III
Fleet's in, The, 583 XII
H & S teach-in, 584 XII
Indian order, 449 IX
Japanese breakthrough, 449 IX
Laboratory service, 446 IX
Letchworth coal concentration depot, 36 I
Lighting contract, 36 I
Locos for collieries, 138 III
National agreement, 584 XII
NCB put brake on, 584 XII
New Company, 36 I
On the ball, 583 XII
On the move, 449 IX
Opencast contract, 446 IX
Open day, 260 VI
Pneumatics and hydraulics show, 307 VII
Pump franchise award, 260 VI
Raising the standard, 139 III
Repeat order from NCB, 36 I
Signed and sealed, 260 VI
Transportable thickener, 583 XII
Winning design, 584 XII

DIARY

14 I; 70 II; 106 III; 175 IV; 206 V;
257 VI; 282 VII; 450 IX; 517 X;
532 XI; 610 XII

EQUIPMENT

Alarm methanometer, 26 I
BG pack it in, 592 XII
Breathing breakthrough, 594 XII
Centrifuges for coal, 152 IV
C-Matic sees red, 538 XI
Coal cleaning jig, 61 II
Containers for coal export, 291 VII
Continuous conveyor chain, 480 IX
De-gassing unit, 291 VII
Diamonds are a drill's best friend, 594 XII
Dowty gets it tight, 538 XI
Dunlop wellingtons, 152 IV
Dust Seal, 483 IX
Dust testing impactor, 61 II
Elemental analysers, 290 VII
Endless rope haulage system, 115 III
Facepiece respirator, 61 II
Flame resistant belting, 291 VII
Flowmeter range, 483 IX
Fluidrive steels the market, 595 XII
Flygt of the Mary Rose, The, 595 XII
Getting the wind up, 595 XII
Hard headings, 190 VII
Improved drill, 26 I
Increased temperature range, 483 IX
Just women, 258 VI
Lindapter in elevated position, 538 XI
Mobile power crusher, 592 XII
Module transport, 538 XI
Motor controllers, 290 VII
NCB fans, 592 XII
New diaphragm valve, 115 III
Newmark Bretby Cropper, 258 VI
Opening up the field, 595 XII
Personal protection range, 480 IX
Positive pressure powered respirator, 152 IV
Preparation plants use polyethylene pipe, 115 III
Pyroban flame-proofs, 480 IX
Reska rotary drill rigs, 258 VI
Roof supports in USA, 483 IX
Rotary filters in circuit, 594 XII
Scopex voyager, 258 VI
Screens for mining, 483 IX
Simquads, 61 II
Single roll crusher, 291 VII
Slide valve for coal-fired ships, 291 VII

Speed/frequency monitor, 480 IX
Valve grinding in situ, 290 VII
Versatile Articulated Loader (J.C. Bamford Excavators Ltd), 26 I
Waste cut out, 594 XII

FEATURES

Automation, 237-256 VI
Automation & Control, 9-12 I
Drilling, 459-474 IX
Face-ends, 79-88 II
Shafts, 294-306 VII
Transportation, 153-173 IV
Tunnelling, 116-135 IV

HEADINGS

ABMEC '83, 444 IX
ABMEC mission to Australia, 148 IV
ABMEC mission to China, 232 VI
AMEME Symposium, 232 VI
Art Exhibition, 232 VI
Best Student (Anthony E Gardner), 4 I
British Coal for Sweden, 188 V
Coal fired ship enters service, 580 XII
Coal Industry bill, 100 III
Coal Industry Society, 56 II
Coal researchers meet to discuss findings, 528 XI
Coal Technology '82, 232 VI
Competitive coal helps British industry, 444 IX
Control-technology boost for the pits, 148 IV
Correspondence, 100 III
Correspondence, 148 IV
Decade of progress, A, 188 V
Doncaster winner for first 3M community service award, 580 XII
Fan design and applications call for papers, 100 III
First-aid training, 528 XI
H & S Commission Report, 56 II
Hearing protection advisory service, 280 VII
Increase in demand for coal, 444 IX
MHEA meets NCB, 148 IV
MHEA Report on belt cleaners, 492 X
MQB examinations, 280 VII
MQB Mine Surveyors' examinations, 1982, 189 V
National Coal Board Codes and Rules, 528 XI
Portway retires, 232 VI
Potteries museums, 528 XI
Preptec '83, 444 IX
Presentation of the Queen's Award, 444 IX
Queen's Award 1982, 232 VI
Retractable ripping platforms, 56 II
Revised British Standards, 100 III
RIP debris loading machine, 4 I
Role of coal in a changing national energy supply situation, the, 492 X
Selection and use of liquid/solid separation equipment, 528 XI
Transshipment seminar, 100 III
Tribute to mining Engineers, 280 VII
Troughed belt conveyor standards, 280 VII
Underground Stability Conference, 4 I
US International Mining Show, 580 XII
What happened to the energy crisis?, 492 X

MISCELLANEOUS

Addition to drill rig range, 468 IX
Belt hazard solved, 306 VII
Brakes, 306 VII
Capital idea, A, 91 II
Coal producer standardises on drill rigs, 473 IX
Coal Story, The, 581 XII
COMMIT '82 (Exhibition), 546-553 XI
Concrete drilling and cutting service, 474 IX
Continuous conveyor chain, 513 X
Contract in Swaziland, 33 I
Conveyor tensioning, 256 VI
Czechoslovakia exports, 281 VII
Disposable respiratory approved, 150 IV
Drill-bits and bore-holes, 471 IX
Eimco trucks, 173 IV
Experience from America, 468 IX
Firefighting in mines, 306 VII
Ground Freezing, 303 VII
Handling speeded up, 272 VI
Hydraulic mining motors, 256 VI
IME Annual Conference Festivities, 233 VI
Increased drilling rates at Butterwell, 467 IX
Interflow '81, 15 I
Jumbos' performance improved, 309 VII
Leak Detection Spray, 240 VI
Light hydraulic jumbos in tight headings, 470 IX
Lightweight air diffuser, 190 V
Maltby shaft, 305 VII

Measure and record, 468 IX
mini jumbo, 474 IX
Monorail materials handling equipment, 254 VI
NCs considering new applications for Leicester mines, 196 V
NSW coal in crisis, 306 VII
One company's answer, 256 VI
Personal air sampling, 301 VII
Pipe protection survey, 124 III
Polycrystalline diamond bits, 464 IX
Portable roadways, 203 V
Powtech '83 Conference, 170 IV
Progress at Gascoigne Wood, 484 IX
Proposed regulations for mains electric coal mines, 190 V
Pumps — The heart of the matter, 156 IV
Rig helps improve reliability, 246 VI
Rotary accelerator, 256 VI
Safety-in-mines conference, 309 VII
Safety products to rent or purchase, 150 IV
Selby shaft furnishing, 305 VII
Shaft hoists, 303 VII
Shaft service, 303 VII
Shaft sinking and grouting rigs, 464 IX
Shaft sinking protection, 303 VII
Small Mines, 23 I
Steam coal in SA, 203 V
Tractor mounted blast hole drill, 473 IX
Truck computer cuts costs, 608 XII
Tunnelling '82, 197-203 V
Underground rock bolting, 471 IX
Wagon accelerator/decelerator, 256 VI
Western Australia — Threshold of resources boom, 112 III
Wyoming opencast, 27 I
Yugoslav team for Neyveli, 268 VI
